

# Nikhil Pappu

## Basic Info

: [nkhlpappu@gmail.com](mailto:nkhlpappu@gmail.com)

: <http://nikhilpappu.info>

Graduated with a B.Tech and an M.Tech in Computer Science and Engineering from the International Institute of Information Technology Bangalore (IIIT-B), India. Interested in distributed computing and complexity theory, and more broadly in theoretical computer science.

## Institutions

2016-2021	<b>Integrated M.Tech in Computer Science and Engineering</b> <i>IIIT Bangalore, India</i> CGPA: 3.39/4.00
2014-2016	<b>Grade XI &amp; XII</b> <i>FIITJEE Junior College, Narayanguda, Hyderabad, India</i> Studied Math, Physics and Chemistry; 97.7%; JEE Main Rank: 5995
2014	<b>Grade X</b> <i>Meridian School, Banjara Hills, Hyderabad, India</i> CGPA: 10

## Experience

SPRING 2021	<b>Master's Thesis</b> <i>IIIT Bangalore</i> Advisor: <a href="#">Ashish Choudhury</a> Finished my master's thesis titled <i>Perfectly-Secure Asynchronous Multiparty Computation for General Adversaries</i> .
SPRING 2021	<b>Teaching Assistant - Foundations of Cryptography</b> <i>IIIT Bangalore</i> Instructors: <a href="#">Ashish Choudhury</a> , <a href="#">Srinivas Vivek</a> Prepared and evaluated graded assignments and conducted tutorial sessions.
FALL 2020	<b>Research in Secure Multi-Party Computation</b> <i>IIIT Bangalore</i> Advisor: <a href="#">Ashish Choudhury</a> Studied information-theoretic secure multi-party computation tolerating a generalized non-threshold adversary in the asynchronous communication model. Submitted some of our results in a paper titled <i>Perfectly-Secure Asynchronous MPC for General Adversaries (Extended Abstract)</i> , which has been published in INDOCRYPT 2020.
FALL 2020	<b>Teaching Assistant - Discrete Mathematics</b> <i>IIIT Bangalore</i> Instructor: <a href="#">Ashish Choudhury</a> Prepared and evaluated graded assignments and conducted tutorial sessions.
SUMMER 2018	<b>Open Source Developer - Google Summer of Code 2018</b> <i>SymPy: a Python library for symbolic mathematics</i> . Mentors: <a href="#">Jason Moore</a> , <a href="#">Ondřej Čertík</a> Implemented a parser that translates Autolev (a proprietary symbolic dynamics language, now superseded by <i>MotionGenesis</i> ) code to SymPy code using the ANTLR parser generator. More details <a href="#">here</a> , and <a href="#">here</a> .

## Publications

2020	<b>Perfectly-Secure Asynchronous MPC for General Adversaries (Extended Abstract)</b> Ashish Choudhury, Nikhil Pappu INDOCRYPT 2020
